

USER GUIDE

EAE LIGHTING PLUG-IN

for Autodesk Revit

The screenshot displays the EAE Lighting Plug-In interface within the Autodesk Revit environment. The interface is divided into several sections:

- Filter Products:** A sidebar on the left containing a "Clear All" link and a series of dropdown menus for filtering products. The selected filters are: Products (INDOOR LIGHTING), Series (High Bay-Low Bay), Category (Revoled X), Internal Category (Revoled X), Model Type (30"), and Consumption Power (Watt) (28 W).
- Selected Product:** Displays the selected product name: "RVX 028U 40TF00 30 4K36".
- Information:** A section on the right featuring social media icons (Facebook, Instagram, Twitter, LinkedIn, YouTube) and a video player. The video player shows a 3D rendering of the "REVOLED X" lighting fixture with a play button overlay. The video title is "Durakdatildi" and the duration is "00:42".
- Buttons:** A row of five red buttons at the bottom: "Get Items", "Installation Guide", "Datasheet", "Place Selected Family", and "Cancel".
- Footer:** A green bar at the bottom of the interface contains the text "Family File Ready", a "Privacy Policy" link, and copyright information: "Copyrights © 2021 All Rights Reserved by EAE Inc.". To the right of the footer are icons for various functions (plug, pin, list, power, gear) and language selection buttons (RU, IT, DE, US, AU). A "Dark Mode" toggle switch is also present, currently set to "ON".

1 - Downloading the Installation File

People who want to use the plugin can access the setup file from our corporate company address <https://www.eaeaydinlatma.com/tr-tr/bim/>

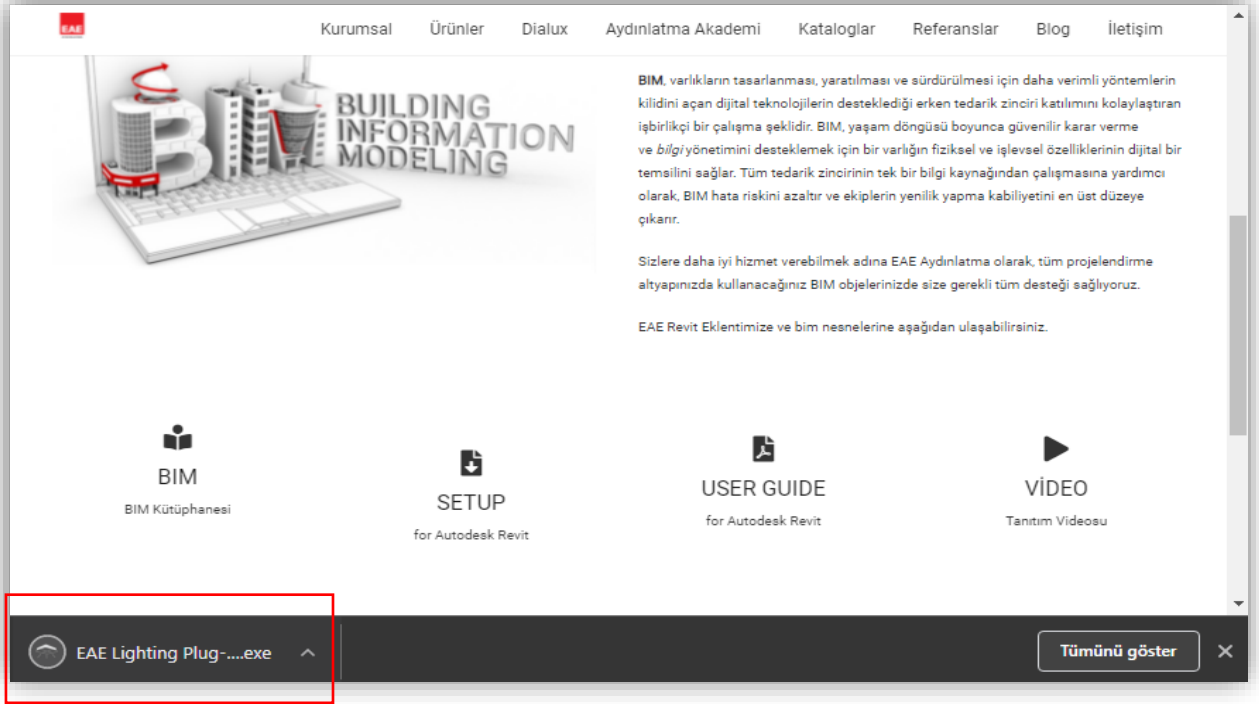

Click the Setup button to download the installation file.

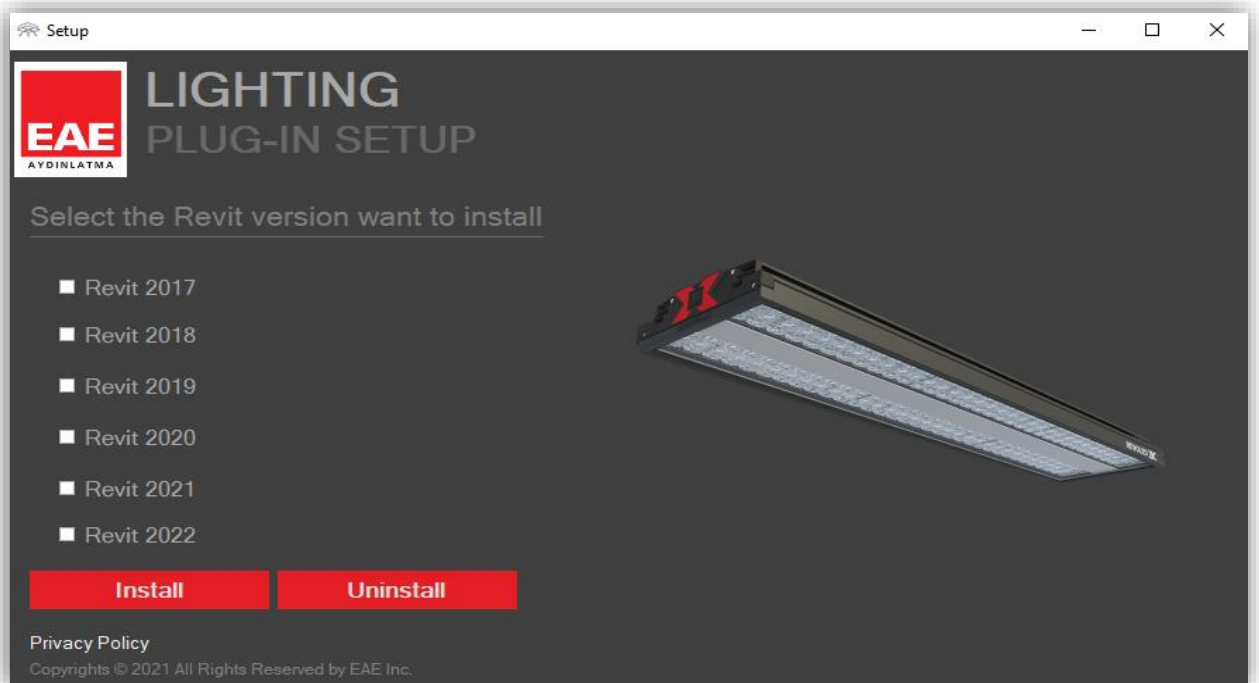

2 – Installation of The EAE Lighting Plug-In

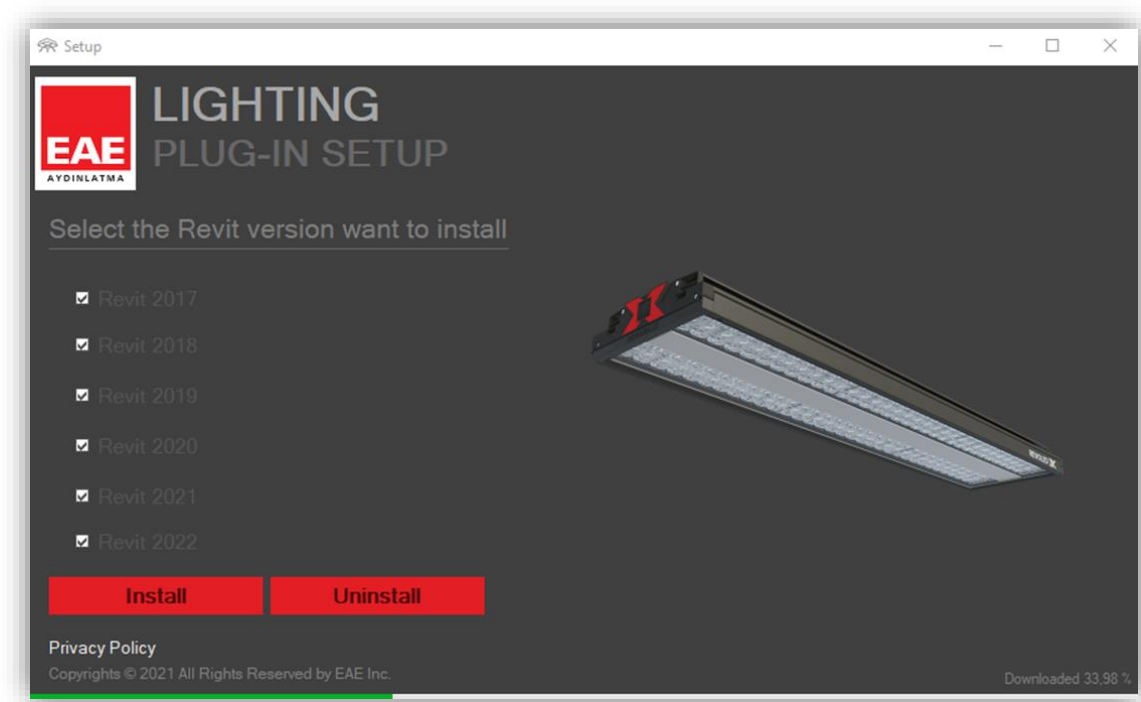

Open the downloaded file.

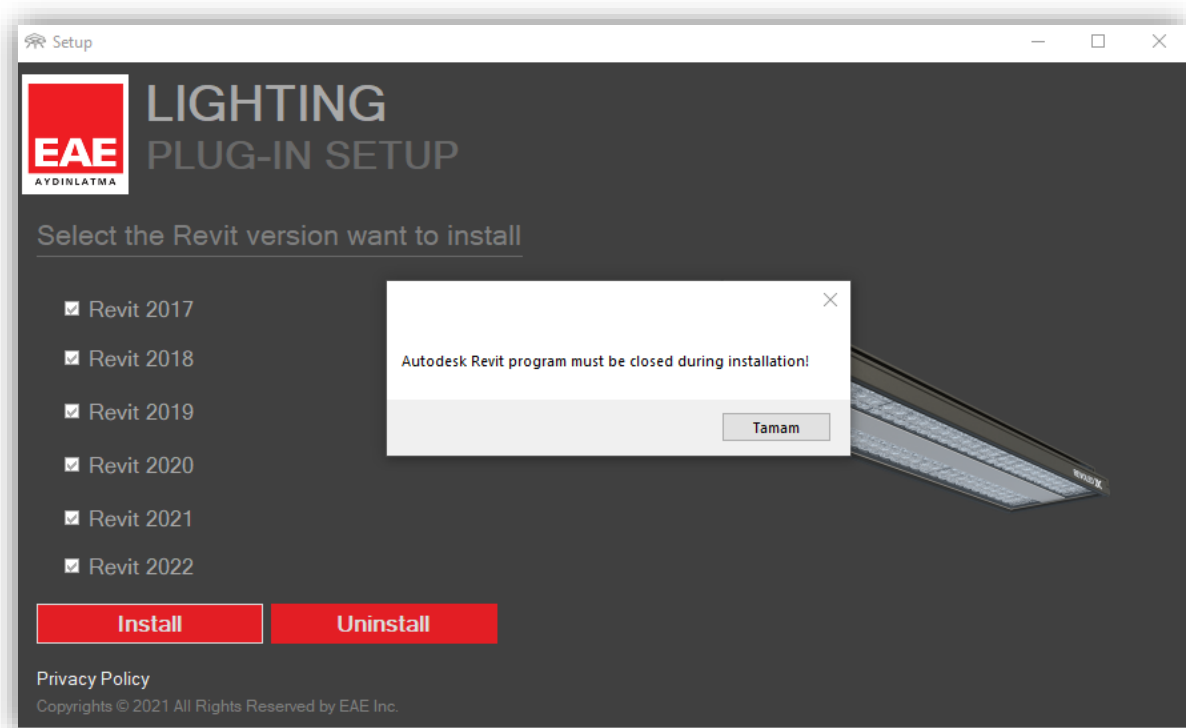

Select the Revit versions you want to install the EAE Ligthing Plug-In.

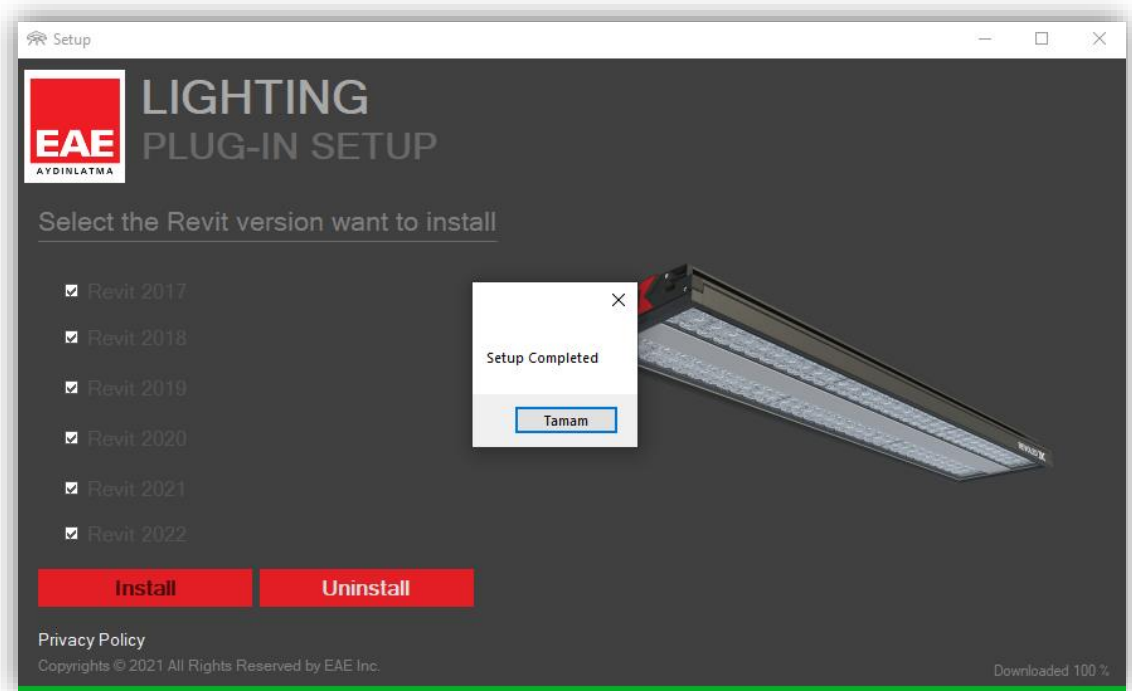

Click the install button and start the installation process.

To continue, the installation process, you need to close Revit. Otherwise, the installation will not start.

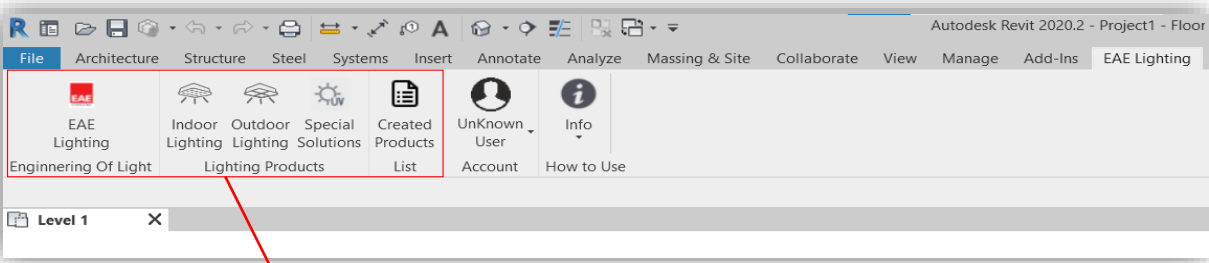

When the installation complete notification appears, you can close the installation window.

3 – Registration & Login

Sign In & Register Panel

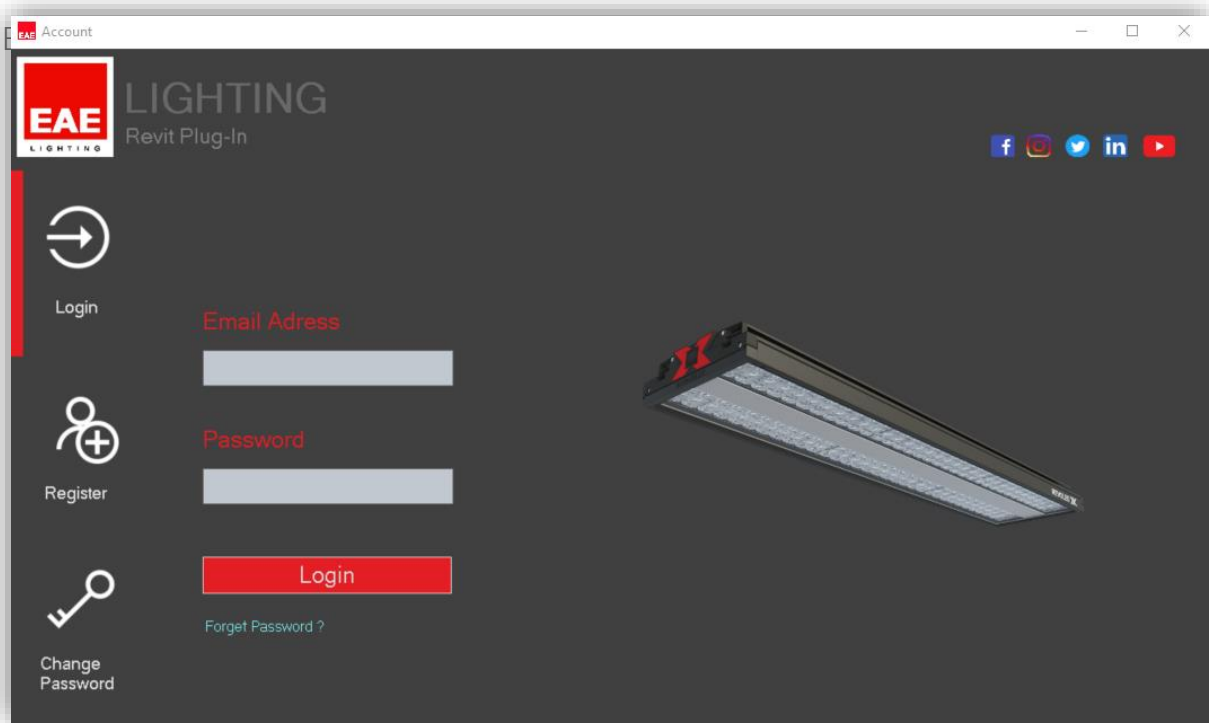

After the installation, open Revit and click EAE Lighting Tab. In order to use the Plug-In, you must first register.

Clicked Without Login

Register

When the buttons in the interface are clicked without login, the Account Form will appear. With this process, the registration or login stages begin.

Account Form

The screenshot shows a software window titled 'Account' for 'EAE LIGHTING Revit Plug-In'. On the left, a vertical sidebar contains three buttons: 'Login' with a circular arrow icon, 'Register' with a person icon and a plus sign, and 'Change Password' with a key icon. The main panel has a dark background. It includes two input fields labeled 'Email Address' and 'Password' in red text. Below the password field is a red 'Login' button and a 'Forgot Password?' link in light blue. To the right of the form is a 3D rendering of a long, rectangular light fixture. The top right corner of the window displays social media icons for Facebook, YouTube, Twitter, LinkedIn, and YouTube.

Previously registered users can login with their e-mail addresses and passwords.

New customers/users first must click the register button and then enter their personal information into the **Register Panel**.

If you have forgotten your password or want to change it, use the **Change Password Panel**.
